PROFILE

Backend Developer with **2+ years of experience** building scalable backend systems using **Java (Spring Boot) and Python**. Experienced in developing **REST APIs, microservices, and AI-driven platforms**, with hands-on exposure to **Docker, Kubernetes, and CI/CD pipelines using Azure DevOps**. Strong foundation in **distributed systems, database design** (PostgreSQL, MongoDB), and backend performance optimization.

SKILLS

- **Backend:** Java (SpringBoot), Python, C, REST APIs, Microservices
- **CS:** Data Structures, OOPS, OS, DBMS
- **Cloud & DevOps:** Docker, Kubernetes, Azure DevOps, CI/CD Pipelines
- **Tools:** Git, VS Code, Sonarqube, PowerBI
- **Databases:** MySQL, Postgresql, MongoDB

WORK EXPERIENCE

Senior Associate Engineer (Backend Developer) - Ascendion, Chennai Aug 2025 – Present

- Developing scalable REST APIs and backend microservices for an AI-driven platform using Java (Spring Boot) Microservices and Python, focusing on AI integration, automation, database interactions, and system reliability.
- Built Dockerized services, implemented CI/CD pipelines using Azure DevOps, deployed applications to Azure Kubernetes clusters while collaborating with cross-functional Agile product and engineering teams.

Associate Engineer (Backend Developer) - Ascendion, Chennai Jun 2024 – Aug 2025

- Started working on an AI-driven platform, contributing to the creation of AI agents, workflows & internal tools while also supporting backend development and API integrations for internal tools & AI workflow automation.
- Contributed to **Salesforce platform development** by building **Lightning Web Components (LWC)** and implementing automation workflows and integrations, following scalable and secure enterprise practices.

Platform Analyst Intern - BerriBot May 2024 – Jun 2024

- Tested and analyzed an AI-based interview proctoring system, collaborating with developers to improve fraud detection accuracy, security and overall system reliability.

Machine Learning Intern - Onceptual Business Solutions, Coimbatore Jul 2022 – Feb 2023

- Built a real-time facial recognition attendance system using OpenCV, achieving **90% accuracy** and automating daily reports to reduce **manual effort by 75%**. ([Attendance Automation](#))

PROJECTS

Visual Verbalizer (Image Captioning) Dec 2023 – Apr 2024

- Built a deep-learning-based image captioning system to generate context-aware visual descriptions, enhancing accessibility and user engagement through AI-driven narrative generation. ([Visual Verbalizer](#))

Weed Detection in Cotton Dec 2022 – Jun 2023

- Developed a YOLOv5-based weed detection system using **2,000+ aerial images**, integrating it into a React-based platform to enable real-time detection and improve cotton productivity by **30%**. ([Weed Detection Cotton](#))

CERTIFICATIONS

- Salesforce Certified Platform Administrator
- Salesforce Certified Agentforce Specialist (Salesforce)
- Advanced Google Analytics (Google)
- Full Stack Development (NoviTech R&D)
- HackerRank Certifications – Python, Java, SQL, Problem Solving

EDUCATION

B.E Computer Science and Engineering, Coimbatore Institute of Technology **CGPA : 8.4** 2020- 2024
